EXPERIENCE

CYBER SECURITY CONSULTANT
IOSENTRIX // REMOTE // JULY 2020 - AUG 2021
- Earned the trust of key decision-makers by demonstrating our expertise in application/network/infrastructure security, SDLC, and full stack assessments
- Pitched to senior executives data on how our services can minimize the risks of a breach in their IT and security systems

SERVICE DESK ANALYST
IT WEAPONS // BRAMPTON, ON // JAN 2020 - JUNE 2020
- Collaborated with teammates on escalating tickets, working together on difficult ones, and maintained detailed documentation on the solution for future use on ConnectWise
- Solved technical IT issues for non tech-savvy end users over the phone by being patient and communicative

CORPORATE ACCOUNT MANAGER
CDW // TORONTO, ON // SEPT 2018 - DEC 2019
- Built a clientele of 50+ enterprise companies in Eastern Ontario by conducting 60 cold calls per day
- Lowered annual IT expenditure of clients by negotiating with major tech brands on their behalf
- Under tight deadlines, worked with third-party shipping to ensure timely arrival of their purchases

PROJECTS

TEXT TO SPEECH READER
- A website that can convert user text input into audio by using the Web Speech API. Also comes with a list of common speech prompts
- Built with: HTML, CSS, & JS

PAPER TRAIL
- A finance tracker where a user can log in via Firebase authentication and input their financial transactions, which will be stored and available upon their next log in
- Built with: React, Firebase, & CSS

CONCENTRATION!
- A memory game consisting of cards that the user must flip and match with its identical counterpart
- Built with: React & CSS
